

Perform CPR

The Cardiopulmonary Resuscitation refresher module from the nationally recognised course is designed to provide workers with the understanding, knowledge and skills to recognise and treat a patient who is in cardiac arrest using cardiopulmonary resuscitation.

Course Duration

The program is delivered in three hours. CPR can be delivered at your premises or at a Chubb training facility.

Course Content

Respond to signs of an unconscious casualty

- Identify hazards to health and safety of self and others
- Minimise immediate risk to health and safety of self, casualty and others by isolating any hazard(s)
- Approach the casualty in a calm, culturally aware, sensitive and respectful manner
- Assess vital signs of casualty
- Recognise the need for CPR

Perform CPR

- Perform CPR in line with current guidelines
- Seek assistance from others and/or ambulance support as appropriate

Communicate details of the incident

- Request ambulance support or appropriate medical assistance and/or ambulance support using available means of communication
- Accurately convey details of casualty's condition and CPR procedures performed to emergency services/relieving personnel
- Calmly provide information to reassure casualty, adopting a communication style to match the casualty's level of consciousness
- Provide reports, where applicable, in a timely manner, presenting all relevant facts relating to performing CPR according to established procedures

Course Participation

The maximum number of participants per course is 15. This ensures all students receive sufficient time to complete practical training and assessment activities.

Participants will need to bring photo identification, a pen and notepad, and should wear comfortable casual clothing.

Assessment

You will be assessed with a combination of short answer written questions, case studies and practical activities. Please note that all students are required to perform a practical demonstration of Cardio Pulmonary Resuscitation (CPR) on the floor.

Outcome

Successful completion of this course may satisfy the partial completion of a First Aid certificate.

A Statement of Attainment is awarded for successful completion in:

HLTAID001 Provide cardiopulmonary resuscitation

Limitations

The course participants must be a minimum of 15 years of age

For this award to remain current, participants must perform a proficiency check every 12 months

Cost

Please contact the Chubb Training Group office in your state on 1300 650 182 or via email chubb.training@chubb.com.au for course costs.

Unique Student Identifier

The Australian government requires all students undertaking nationally recognised training to obtain a USI. A USI is a number issued to students by the Australian government. Students can apply online at <http://www.usi.gov.au/>
