

## Digital SLR Photography with Mike Kane

### Beginner Photographers

Improve your understanding of your camera and gain photographic skills. The aim is to get you off the Automatic / Program modes on your SLR and let you take control and be more creative with your photography. Mike will help you get more familiar with your camera controls and learn about Exposure and how you can, with the combination of Aperture, Shutter Speeds and ISO (sensitivity) get the correct exposure for your images.

6 x 2 hour sessions or 2 x 6 hour sessions

**\$220**

### Digital SLR 2 - The Next Step

This class is a follow on from the Digital SLR course as it is about seeing and taking images with your camera. During this course we will have two field trips. We will cover Landscape photography both in the classroom and out on location and we will also look at night photography subjects covering long exposures and high ISO. We will explore desktop studio set up on a budget using interesting creative effects. We will work on your images using Photoshop Elements preparing your favourites for printing.

12 hours over 5 sessions

**\$260**
